Dear Congressman Willeker,

This is a protest letter. I am protesting the fact that an admitted member of a cited "Communist Front" is employed at one hundred taxpayers dollars a day as a consultant to the Warren Commission. The man in reference is Prof. Norman Redlich.

I would like to know who hired him inspite of the fact that his affiliation was on his application. This is an effrontic situation.

Isn't it ironic that the Communist Party will know the more about Oswald and the American public will have to wait twenty years. See what you can do.

Respectfully
Mrs. Evonne Snyder
